JUNE 4, 2019

IHCP to update pricing for procedure codes 77371, 95943, and G0282

Effective July 5, 2019, the Indiana Health Coverage Programs (IHCP) will update pricing for the Current Procedural Terminology (CPT^{®1}) and Healthcare Common Procedure Coding System (HCPCS) codes in Table 1. The pricing for these procedure codes is changing from resource-based relative value scale (RBRVS) to manual pricing for professional claims (billed on CMS-1500 form or electronic equivalent). Outpatient reimbursement will remain unchanged. This pricing change applies to professional claims with dates of service (DOS) on or after July 5, 2019.

Table 1 – Procedure codes updated from RBRVS pricing to manual pricing, effective for DOS on or after July 5, 2019

Procedure code	Description	Amount reimbursed for professional claims
77371	Radiation therapy delivery, stereotactic radiosurgery (SRS) for cranial growths, per session	25% of billed charges
95943	Testing of autonomic (parasympathetic and sympathetic) nervous system function	40% of billed charges
G0282	Electrical stimulation, (unattended), to one or more areas, for wound care other than described in G0281	90% of billed charges

This pricing and reimbursement information applies to services delivered under the fee-for-service (FFS) delivery system. Individual managed care entities (MCEs) establish and publish reimbursement information within the managed care delivery system. Questions about managed care guidance should be directed to the MCE with which the member is enrolled.

This change will be reflected in the next regular update to the *Professional Fee Schedule*, accessible from the [IHCP Fee Schedules](#) page at in.gov/medicaid/providers.

Provider Healthcare Portal to allow multiple provider types in a rendering provider profile

Effective July 1, 2019, the Indiana Health Coverage Programs (IHCP) will enhance the Provider Healthcare Portal (Portal) to let a rendering provider enroll with more than one provider type using a single National Provider Identifier (NPI), as long as the rendering provider meets the enrollment criteria for each additional provider type.

For information about provider type enrollment requirements, see the [Provider Enrollment](#) provider reference module at in.gov/Medicaid/providers. An applied behavior analysis (ABA) provider, for example, can meet the enrollment criteria for more than one provider type.

An existing rendering provider who wants to add a second provider type, and meets the criteria for that provider type, may use the following procedure to enroll with a second provider type.

If you are a currently enrolled rendering provider and your existing profile does not have a taxonomy associated with it, you will first need to update your existing profile with a taxonomy code. The process to do this is defined in steps 1-6 as follows. If your existing profile already has one or more taxonomies associated with it, proceed to step 7 to enroll your second provider type.

1. Log in to the [Provider Healthcare Portal](#), accessible from the *Home* page at in.gov/medicaid/providers, as a registered rendering provider.
2. On the *My Home* page, under the Provider section, click **Provider Maintenance** (see Figure 1).

Figure 1 – My Home page, Provider Maintenance link

continued

3. On the *Provider Maintenance: Instructions* panel, click **Provider Identification Changes** (see Figure 2).

Figure 2 – Provider Maintenance: Instructions, Provider Identification Changes link

Tax ID Changes	Please select the link on the left to access the information that you would like to maintain.
Contact and Delegated Administrator Information Changes	
Specialty Changes	Current Maintenance Pending Requests
Other Information Changes	
Provider Identification Changes	There are no Pending Maintenance Requests to show.

4. From the *Provider Maintenance: Provider Identification* panel (see Figure 3), update the existing provider information to add the appropriate taxonomy code for the primary provider type.

Note: Currently enrolled rendering providers with only one provider type are not required to have a taxonomy code. However, enrolling with an additional provider type requires assigning a taxonomy code to each provider type.

Figure 3 – Provider Maintenance: Provider Identification

Provider Identification					
National Provider Identifier (NPI) is a unique identification number for healthcare providers.					
*NPI	XXXXXXXXXX				
Taxonomy Information					
A taxonomy code identifies a healthcare provider type and specialty; it is not a unique physician identification number UPIN, a Medicare provider number, or an IHCP provider number. The full taxonomy code set can be found at wpc-edi.com under <i>Reference</i> . The taxonomy requested is the taxonomy associated with the provider's NPI.					
Please include all taxonomy codes that reflect the services to be provided at this service location.

continued

5. Click **Submit** (not pictured) to submit the maintenance transaction.
6. Before continuing with your new enrollment application for the second provider type, verify that your changes are in place.
 - Use the profile functionality on the *My Home* page (see [Figure 1](#)) to verify that your existing profile was updated with the newly added taxonomy code.
 - Log off the Portal.

After the existing provider profile has been associated with a taxonomy code, you may now enroll under a different provider type.

7. On the Portal *Home* page, click **Provider Enrollment** (see Figure 4).

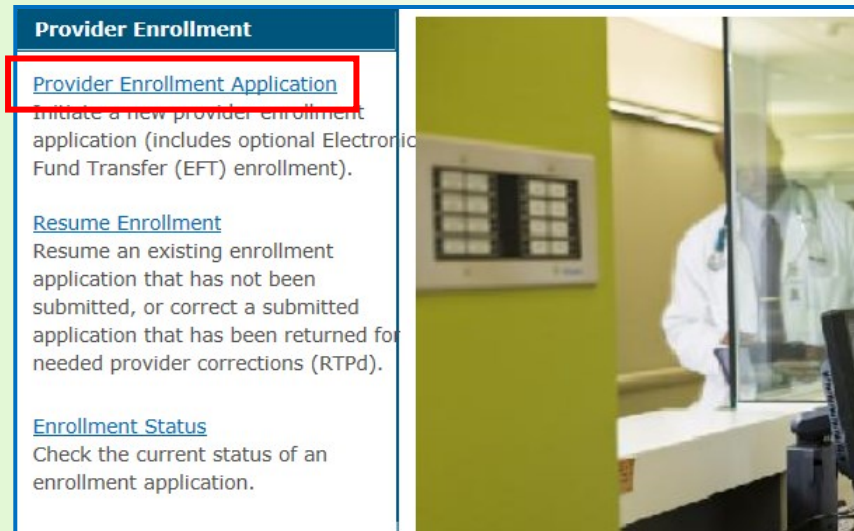

Figure 4 – Portal Home page, Provider Enrollment link

The screenshot displays the IHCP Portal Home page. On the left, there is a 'Login' section with a 'User ID' input field, a 'Log In' button, and links for 'Forgot User ID?', 'Register Now', and 'Where do I enter my password?'. Below this is a 'Protect Your Privacy!' section with a note to log off and close browser windows. Further down is a section asking 'Would you like to enroll as a Provider?' with the 'Provider Enrollment' link highlighted by a red rectangle. Below that are 'Drug Resources' and 'Fee Schedule' sections with links to 'Fee-for-Service Pharmacy Resources' and 'Search Fee Schedule'. On the right, the main content area is titled 'WHAT CAN YOU DO IN THE PROVIDER HEALTHCARE' and lists various services like submitting claims, checking claim status, inquiring on eligibility, viewing remittance advices, and requesting prior authorization. It also mentions 'Managed Care Entities can:' and lists actions like enrolling, disenrolling, and updating primary medical providers, reviewing encounter claims, and inquiring on managed care member eligibility. At the bottom right, there is a photo of a doctor and a patient, and links for 'Website Requirements' and 'Notify Me'.

13. Enter a taxonomy code (see [Figure 8](#)). This code may not be the same as any of the taxonomy codes associated with your existing profile.

14. Continue with the application until the enrollment application is complete; and then click **Submit**.

IHCP postpones date for including manually priced procedures in multiple surgery reimbursement reduction

The Indiana Health Coverage Programs (IHCP) previously announced in *IHCP Banner Page [BR201916](#)*, that effective June 1, 2019, manually priced procedures would be included in the reimbursement methodology for multiple surgeries. The IHCP is postponing the effective date, with a new date to be announced in a future IHCP publication.

For more information about this coming change, see the article in *BR201916, IHCP to include manually priced procedures in multiple surgery reimbursement reduction, effective June 1, 2019*. Watch future IHCP publications for a **new** effective date.
