CoreMMIS and Portal “go-live” date postponed

The “go-live” date for implementation of the new Core Medicaid Management Information System (CoreMMIS) and Provider Healthcare Portal (Portal), originally slated for December 28, 2015, has been postponed. To ensure that Indiana Family and Social Services Administration (FSSA) standards for performance and quality are met, the new system is now expected to be available in 2016.

Indiana Health Coverage Programs (IHCP) providers, contractors, and other stakeholders will receive as much advance notice of the new implementation date as possible. At least 30 days’ notice will be given regarding transition and conversion activities that directly affect providers and the ability to conduct IHCP business. The time frames associated with the suspension of accepting business transactions for processing in the current system are estimated as follows:

- Provider enrollments/profile updates – approximately 45 days prior to implementation
- Fee-for-service (FFS) paper claims/adjustments – approximately 30 days prior to implementation
- FFS electronic claims with attachments – approximately 30 days prior to implementation
- FFS electronic adjustments – approximately 15 days prior to implementation
- FFS electronic claims without attachments – approximately 5 days prior to implementation
- FFS financial cycle (remittance advices, electronic fund transfers, checks) – normal schedule week prior to implementation; first financial cycle in the new system will run approximately one week after implementation

Details about these and any other necessary transition periods will be provided in upcoming IHCP publications.

Providers should continue preparing for the new system. Related guidance will continue to be published in IHCP bulletins. Self-directed web-based [Portal training](#) is now available at indianamedicaid.com, allowing providers to become familiar with Portal features at their convenience. The Provider Relations Field Consultants will also schedule virtual trainings and on-site workshops in the coming months. Providers can help ensure they do not miss important information by signing up to receive IHCP [email notifications](#).
