

# IHCP *bulletin*

INDIANA HEALTH COVERAGE PROGRAMS    BT201726    APRIL 13, 2017

## IHCP publishes an Outpatient Fee Schedule

The Indiana Health Coverage Programs (IHCP) has published a fee schedule of the existing outpatient rates for hospitals and ambulatory surgical centers (ASCs) on the indianamedicaid.com website. The published Outpatient Fee Schedule reflects IHCP coverage and reimbursement policy effective as of April 1, 2017. The fee schedule will be updated at least quarterly to reflect changes in policy or billing guidance. As is customary, changes in policy and billing guidance are announced in IHCP provider bulletins and banner pages.

The Outpatient Fee Schedule includes the rates for all procedure codes billed for IHCP outpatient services. Supplemental reference documents include a list of ASC codes and their rates, a list of all revenue codes and their outpatient reimbursement methodologies, and code tables outlining revenue code/procedure code linkages unique to IHCP that deviate from national coding guidelines.

A frequently asked question-and-answer document is provided for reference as well.

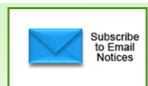

The Outpatient Fee Schedule is available in Microsoft Excel and is compatible with versions 97 or greater. It can be accessed from the [IHCP Fee Schedules](#) page at indianamedicaid.com. The previously published fee schedule for CMS-1500 and dental billers has been appropriately retitled “Professional Fee Schedule” and is accessible from the same web page. Quick links to each of these fee schedules are also available on the provider website.
