INDIANA HEALTH COVERAGE PROGRAMS BT201938 JULY 9, 2019

IHCP removes residential habilitation (daily) services from requirement to document using EVV

The Indiana Health Coverage Programs (IHCP) previously announced in *IHCP Bulletin BT201855* an electronic visit verification (EVV) solution that will enable providers to meet the requirement to document personal care and home health services rendered as required by the *21st Century Cures Act*. The bulletin also listed the personal care services procedure code and modifier combinations for which the IHCP would require providers to document using EVV. However, following additional review, the IHCP is removing the residential habilitation procedure code and modifier combinations in Table 1 from the requirement.

Table 1 – Procedure code and modifier combinations for personal care services rendered that will not require documenting with EVV

Procedure code	Modifier 1	Modifier 2	Modifier 3	Modifier 4	Description	Unit
T2016	U7	U5	UN	UA	Residential habilitation daily 1 (2 person setting, Algo 3); per diem	Per day

More information can be found on the [Electronic Visit Verification](#) page at in.gov/medicaid/providers, and in the *Electronic Visit Verification FAQs* document accessible from the website. For general questions or concerns about the EVV program, email EVV@fssa.in.gov.

As a reminder, the *21st Century Cures Act* established the following dates that providers must meet the requirement to document certain personal care services (excluding those in Table 1) and home health services using an EVV system:

- Personal care services – January 1, 2020
- Home health services – January 1, 2023
