

Attention:

The *IHCP Provider Manual* and all supplemental provider manuals have been replaced with *IHCP Provider Reference Modules*. To access these modules, go to the [Provider Reference Materials](#) page and open the appropriate module for the topic of interest.

Provider manuals will be archived and remain available for a limited time for historical reference only. Providers are reminded that archived manuals do not include policy or procedural changes that occurred after the manuals' effective dates and, therefore, should not be relied on as current and up-to-date guidance.
