Obtaining and Reporting Your NPI at the 2006 IHCP Provider Seminar

During the 2006 Indiana Health Care Programs (IHCP) Provider Seminar, workstations will be available for providers to apply for their National Provider Identifier (NPI) from the National Plan and Provider Enumerator System (NPPES).

Note: If you apply for an NPI from the NPPES during the seminar you will not receive your NPI the same day.

Providers who have already obtained their NPI and have received the NPI notification letter from EDS may use the workstations to report their NPI to the IHCP via the NPI Reporting Tool. To report your NPI you must have the following available:

- The NPI notification letter (mailed from EDS) that includes the password needed to access the NPI Reporting Tool.
- The reporting provider's tax identification number or social security number.
- Taxonomy codes associated with each IHCP legacy provider identifier being reported.
- Contact name, telephone number, and e-mail address.
- The NPI of the provider(s) and the NPI of all rendering providers affiliated with the group, if applicable.

Proton Treatment Billing

The purpose of this article is to inform providers that the Indiana Health Coverage Programs (IHCP) has determined that it is appropriate for providers to use the Current Procedural Terminology (CPT[®]) codes listed in Table 1 to report the technical component only of the CPT codes noted in Table 1 for reporting proton treatment delivery. Therefore, effective for dates of service on or after December 1, 2006, the IHCP will not reimburse providers services reported using the CPT codes listed in Table 1 and billed with modifiers 26 – *Professional component*, and TC – *Technical component*. Providers are advised to bill CPT codes 77520, 77522, and 77525 for the technical component only. Additionally, providers are advised to report the professional services using an appropriate CPT procedure code.

Direct questions about this article to EDS Customer Assistance by calling (317) 655-3240 in the Indianapolis local area, or 1-800-577-1278.

Table 1 – CPT Codes Reporting Proton Treatment Delivery

CPT Code	Description
77520	Proton treatment; simple, without compensation
77522	Proton treatment; simple, with compensation
77525	Proton treatment delivery; complex

Vaccines for Children

Effective September 25, 2006, the Indiana State Health Department (ISDH) announces that the vaccine CPT code 90715 - *Tetanus, diphtheria toxoids and acellular pertussis vaccine (Tdap) for use in individuals 7 years or older, for intramuscular use (Boostrix and Adacel)*, is available through the Vaccines for Children (VFC) Program. Therefore, for dates of service on or after September 25, 2006, reimbursement for CPT code 90715 is the lesser of the \$8 administration fee or the billed amount.

2006 IHCP Provider Seminar

The Office of Medicaid Policy and Planning (OMPP), Children's Health Insurance Program (CHIP), and EDS invite IHCP providers to attend the 2006 IHCP Provider Seminar October 2-4, 2006. This seminar is presented at no cost. Seminar sessions are offered at various times during the three-day seminar. EDS provider field consultants and representatives from AmeriChoice, HCE, provider associations, other EDS departments, and current and new 2007
