All Vaccine for Children Providers

Effective immediately and retroactive to February 1, 2007, the IHCP will reimburse providers for CPT code 90649, *Human Papilloma Virus (HPV) Vaccine* for members 9 to 18 years of age. Vaccine for Children (VFC) providers are voluntarily asked to bill for HPV vaccine according to the source of the stock. IHCP encourages providers to use VFC HPV vaccine, but if an IHCP VFC provider is not able to obtain enough VFC vaccine to immunize appropriately and has private stock available, the provider may submit the claims to EDS with charges appropriate to the source of the vaccine. VFC immunization vaccine stock should be billed at the \$8 administration fee and private stock may be billed using the provider's usual and customary charge (UCC) for CPT code 90649, *Human Papilloma Virus (HPV) Vaccine*.

Submit claims for 90649 for all IHCP programs to EDS for reimbursement. The vaccine procedure code 90649 will be carved-out of RBMC until December 31, 2007; however, the MCOs will maintain responsibility for reimbursement of any associated services including an administration code or evaluation and management code that is billed on the same date of service as the vaccine. IHCP will continue to investigate and monitor HPV immunization for women 19 to 26 years of age.
