Transition of Wards of the Court and Foster Children into the Indiana *Care Select* Program

Effective July 1, 2008, all wards of the court and foster children currently enrolled in Medicaid will begin transitioning to the Indiana *Care Select* program. Some of these members are currently enrolled in other Medicaid programs and may already be receiving care from physicians enrolled in the Indiana Health Coverage Programs (IHCP) provider network. The following aid categories will transition to *Care Select*:

- MA-3 (Wards not IVE eligible under 18)
- MA-4 (Title IVE foster children under 18)
- MA-8 (Children Receiving Adoption Assistance)
- MA-14 (Former Foster Children)

The Indiana *Care Select* Program is designed to improve the member's health status; enhance quality of life; improve member safety, member autonomy and adherence to treatment plans; and control fiscal growth. Through this program, the State will focus on the following objectives:

- Development of treatment regimens for chronic illnesses will conform to evidence-based guidelines.
- Primary care providers will be able to incorporate knowledge of functional assessments, behavioral changes, self-care strategies, and methods of addressing emotional or social distress into overall patient care.
- Care will be less fragmented and more holistic by addressing a member's physical and behavioral health care needs in addition to his or her medical and social needs.
- Communication will increase across settings and providers.
- Members will have greater involvement in their care management.

For more information on the *Care Select* program, refer to bulletins [BT200723](#) and [BT200804](#).

Provider Enrollment Forms and NPI

Provider Enrollment is no longer accepting provider enrollment or update forms that are submitted without an NPI. If the NPI has not been reported, forms must be submitted with both the NPI and the LPI to ensure accurate and timely processing. Forms submitted without an NPI cannot be processed and will be rejected and immediately returned to the submitter for resubmission with the appropriate NPI. Note, atypical providers are excluded from this requirement.

Outpatient Surgery Providers

Ambulatory Surgical Center Indicators and Revenue Code Linkage

EDS recently updated pricing information for surgical procedure codes in the range 10000-69900 when billed with revenue codes 360 – *Operating Room Services* or 490 – *Ambulatory Surgical Center*. Claims previously denied for error code 4108 – *No ASC on File*, will be reprocessed or adjusted beginning the week of April 28, 2008.

The Current Procedural Terminology¹ (CPT) codes in Table 1 were updated with ambulatory surgical center (ASC) pricing and/or revenue code linkage.
