### VFC Flu Vaccine

The flu season is starting. To address the need for immunizations and deal with potential shortage of available influenza vaccines, the Indiana Health Coverage Programs (IHCP) is not limiting reimbursement for any influenza vaccines, regardless of their availability from the Vaccines for Children (VFC) program.

This policy, effective October 1, 2008, allows you to obtain reimbursement for privately purchased influenza vaccines for eligible VFC members when VFC vaccines are not available and supplies are delayed. If you administer a free VFC vaccine, you should bill the appropriate Current Procedural Terminology (CPT<sup>®1</sup>) procedure code but not charge more than the \$8 VFC vaccine administration fee. Do not bill the separate administration CPT code.

When administering a privately purchased influenza vaccine, you may bill for the cost and administration of the vaccine. The IHCP-allowable reimbursement is based on the average wholesale price (AWP) of the vaccine. You may separately bill an appropriate CPT administration code (90772-90774, 90779) in addition to the CPT vaccine procedure code. If an evaluation and management (E/M) service code is billed with the same date of service as an office-administered immunization, do not bill the vaccine administration code separately. Reimbursement for administration is included in the E/M code allowed amount. Separate reimbursement is allowed when the administration of the drug is the only service billed by the practitioner. In addition, if you give more than one injection on the same date of service and no E/M code is billed, you may bill for an administration fee for each injection using 90772-90774 or 90779, as appropriate.

Remember – bill no more than the \$8 VFC administration fee for free VFC influenza vaccine; or bill your usual and customary rate for the influenza vaccine CPT plus the appropriate administration CPT for provider-purchased influenza vaccine when the immunization is provided without the E/M service.

You must continue to submit claims to the appropriate delivery system (EDS or the member's managed care organization) for each member, regardless of the source of the vaccine stock. Claims are eligible for post-payment review, and you must maintain documentation and invoices related to private stock when substituting for VFC vaccine. Rates for rural health clinics (RHCs) and Federally Qualified Health Centers (FQHCs) include payment for the vaccine and administration fee.

### Pricing Change for HCPCS G0238

Effective for claims with dates of service as of January 13, 2009, the rate for Healthcare Common Procedure Coding System (HCPCS) code G0238 – *Therapeutic Procedures To Improve Respiratory Function, Other Than Described By G0237, One On One, Face To Face Per 15 Minutes (Includes Monitoring)* will be \$12.98 per unit.
