Dental Providers

Billing Member Claims for Dental Emergency Services

When billing dental claims for “Emergency Services Only” members, it is required that “Emergency” is noted in form locator 2 on the American Dental Association (ADA) 2006 dental claim form, or that the emergency indicator is marked “yes” for 837D and Web interChange transactions. This is in addition to billing emergency codes from Table 1 in Bulletin [BT200839](#), dated October 21, 2008. Using a code from Table 1 on the claim does not eliminate the need for providers to document “Emergency” on the claim form or electronic transaction.

Claims submitted without “Emergency” noted in form locator 2 and the appropriate emergency procedure code will deny with the explanation of benefits (EOB) code 2047 – *Package E Members Eligible for Dental Emergency Services Only*.
