INDIANA HEALTH COVERAGE PROGRAMS

BR201205

JANUARY 31, 2012

Reimbursement for magnetoencephalography

Effective for dates of service on or after March 1, 2012, the Indiana Health Coverage Programs (IHCP) will cover revenue codes 860 – *Magnetoencephalography (MEG) – General* and revenue code 861 – *Magnetoencephalography (MEG) – MEG*. In addition, the following Current Procedural Terminology (CPT^{®1}) codes have been linked to revenue codes 860 and 861:

- 95965 – *Magnetoencephalography (MEG), recording and analysis; for spontaneous brain magnetic activity (eg, epileptic cerebral cortex localization)*
- 95966 – *Magnetoencephalography (MEG), recording and analysis; for evoked magnetic fields, single modality (eg, sensory, motor, language, or visual cortex localization)*
- 95967 – *Magnetoencephalography (MEG), recording and analysis; for evoked magnetic fields, each additional modality (eg, sensory, motor, language, or visual cortex localization).*

Providers should bill these procedure codes with the appropriate revenue code. The IHCP maximum reimbursement in the outpatient facility setting for these magnetoencephalography (MEG) procedure codes is indicated in the [table on the following page](#).

Take the IHCP's ICD-10 survey!

A link to the ICD-10 IHCP Provider Readiness Survey will be posted on indianamedicaid.com February 7 – watch IHCP publications for announcements.

Maximum reimbursement for magnetoencephalography in the outpatient facility setting

Procedure code	Description	Maximum reimbursement in outpatient facility setting	Maximum reimbursable units per date of service
95965	Magnetoencephalography (MEG), recording and analysis; for spontaneous brain magnetic activity (eg, epileptic cerebral cortex localization)	\$3,408.69	1
95966	Magnetoencephalography (MEG), recording and analysis; for evoked magnetic fields, single modality (eg, sensory, motor, language, or visual cortex localization)	\$977.12	1
95967	Magnetoencephalography (MEG), recording and analysis; for evoked magnetic fields, each additional modality (eg, sensory, motor, language, or visual cortex localization)	\$977.12	3

Two first-quarter IHCP workshops are now virtual training sessions

The Indiana Health Coverage Programs (IHCP) workshops scheduled for March 6, 2012, in East Chicago and March 28, 2012, in Evansville will now be conducted via virtual room. Virtual room training is an efficient way to allow staff to attend IHCP workshops without leaving the office. With virtual room training, participants follow the presentation on their computer while listening to the presenter by telephone. Only 125 telephone lines will be available, so register early – visit the [Provider Education page](#) of indianamedicaid.com.

The OMPP to begin recovery audits in January 2012

The Indiana Office of Medicaid Policy and Planning (OMPP) has contracted with Thomson Reuters Healthcare to provide an enhanced fraud and abuse detection system (FADS), as announced in the Indiana Health Coverage Programs bulletin [BT201138](#), dated August 2, 2011. As part of the FADS, the OMPP has requested that Thomson Reuters subcontract with an independent recovery audit contractor (RAC), similar to the RAC program in Medicare. Thomson Reuters has selected HMS to provide the RAC services in compliance with Section 6411 of the *Patient Protection and Affordable Care Act of 2010*. HMS is authorized to audit provider payments and associated financial records to identify Medicaid payments that may have been overpaid or underpaid, and to recover overpayments or correct underpayments.

Initially, HMS will assist Thomson Reuters and the OMPP in identifying and auditing inpatient hospital providers with outstanding credit balances. HMS has begun notifying selected providers of the upcoming audits.
