How to submit claims for implantable cardioverter defibrillator devices

The January 24, 2012, bulletin [BT201203](#) announced that, effective March 1, 2012, the Indiana Health Coverage Programs (IHCP) will reimburse the cost of implantable cardioverter defibrillator devices separately from reimbursement for the implantation procedure when the implantation is performed in an outpatient surgical setting. This policy is retroactive to dates of service on or after January 1, 2009.

Bulletin [BT201203](#) provided guidance for this policy; however, to receive separate reimbursement for the cardioverter defibrillator device, you must follow these revised billing instructions:

- For dates of service January 1, 2009, through June 30, 2011, you must submit a retail invoice or a manufacturer's cost invoice with your claim, along with a copy of the front page of bulletin [BT201203](#).
- For dates of service July 1, 2011, through February 29, 2012, you must submit both a cost invoice and documentation of the manufacturer's suggested retail price (MSRP) with your claim, along with a copy of the front page of bulletin [BT201203](#).

- [Update to Mental Health Quality Advisory Committee edits](#)

- For dates of service March 1, 2012, and after, you must submit both a cost invoice and documentation of MSRP with your claim.

Both resubmitted and new claims require compliance with all other billing guidelines outlined in [BT201203](#). For more information about what constitutes MSRP documentation, see banner page [BR201206](#).

Update to MHQAC edits

Utilization edits for mental health medications, as recommended by the Mental Health Quality Advisory Committee (MHQAC), were first implemented June 19, 2007. For more information, please see bulletin [BT200709](#). The utilization edits are reviewed by the MHQAC quarterly. The update to utilization edits in the following table is effective April 3, 2012.

Update to utilization edits effective April 3, 2012

Name of medication and strength	Utilization edit
fluoxetine 60mg	1 per day
