Pricing correction for HCPCS codes Q0112 and Q0114

Effective June 1, 2012, for dates of service on or after June 1, 2012, the Indiana Health Coverage Programs (IHCP) will correct how professional claims are paid for Healthcare Common Procedure Coding System (HCPCS) codes Q0112 – *All potassium hydroxide (koh) preparations* and Q0114 – *Fern test*. Due to a systems error, professional claims have paid at a maximum rate. The error has been corrected, so claims will pay at the correct lab fee pricing amount indicated in the following table. Outpatient claims are paying correctly. Providers do not need to change how they are billing.

Reimbursement information for dates of service on or after June 1, 2012

Billing code	Product and service description	Lab fee pricing amount
Q0112	<i>All potassium hydroxide (koh) preparations</i>	\$5.90
Q0114	<i>Fern test</i>	\$9.88
