Revenue code linkages for CPT code 86336 and HCPCS code G0283

For dates of service on or after August 1, 2012, the Indiana Health Coverage Programs (IHCP) has linked Current Procedural Terminology (CPT^{®1}) code 86336 – *Inhibin A* to revenue codes 302 – *Lab/immunology* and 309 – *Lab/other*. For

dates of service on or after August 1, 2012, the IHCP has linked Healthcare Common Procedure Coding System (HCPCS) code G0283 – *Electrical stimulation (unattended), to one or more areas for indication(s) other than wound care, as part of a therapy plan of care* to revenue code 430 – *Treatments occupational therapy*.

Outpatient billing instructions for CPT codes 94780 and 94781

To allow for the appropriate reimbursement of the base and add-on code, providers should bill Current Procedural Terminology (CPT) code 94780 – *Car seat/bed testing for airway integrity, neonate, with continual nursing observation and continuous recording of pulse oximetry, heart rate and respiratory rate, with interpretation and report; 60 minutes* with revenue code 460 – *Pulmonary function*; and CPT code 94781 – *Car seat/bed testing for airway integrity, neonate, with continual nursing observation and continuous*

recording of pulse oximetry, heart rate and respiratory rate, with interpretation and report; each additional full 30 minutes (List separately in addition to code for primary procedure) with revenue code 469 – *Other pulmonary function*.

Consistent with the National Correct Coding Initiative's (NCCI's) medically unlikely edits, CPT code 94780 reimburses a maximum of one unit, and CPT code 94781 reimburses a maximum of two units. The following table shows the linkages for these procedure and revenue codes.

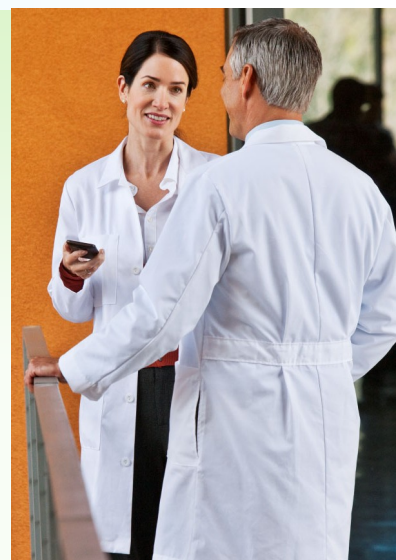

Revenue code linkages for CPT codes 94780 and 94781

Procedure code	Description	Revenue code	Maximum reimbursement per unit
94780	Car seat/bed testing for airway integrity, neonate, with continual nursing observation and continuous recording of pulse oximetry, heart rate and respiratory rate, with interpretation and report; 60 minutes	460	\$36.37
94781	Car seat/bed testing for airway integrity, neonate, with continual nursing observation and continuous recording of pulse oximetry, heart rate and respiratory rate, with interpretation and report; each additional full 30 minutes (List separately in addition to code for primary procedure)	469	\$36.37

Billing and reimbursement changes for revenue codes 460 and 469

To bring the Indiana Health Coverage Programs (IHCP) billing instructions for revenue codes in alignment with national coding guidelines, the Office of Medicaid Planning and Policy (OMPP) is reviewing revenue codes and identifying those that require procedure codes. Two revenue codes identified are 460 – *Pulmonary function* and 469 – *Other pulmonary function*. For dates of service on or after July 1, 2012, a procedure code will be required for revenue codes 460 and 469. For claims submitted on or after July 1, 2012, if a procedure code is not billed with revenue code 460 or revenue code 469, the detail will deny for explanation of benefits (EOB) code 9077 – *A procedure code is required when billing this revenue code*. If an incorrect procedure code is billed with revenue code 460 or 469, the detail will deny for EOB

[Continue](#)

520 – *Invalid revenue code procedure code combination*. The following tables show procedure codes billable with revenue codes 460 and 469.

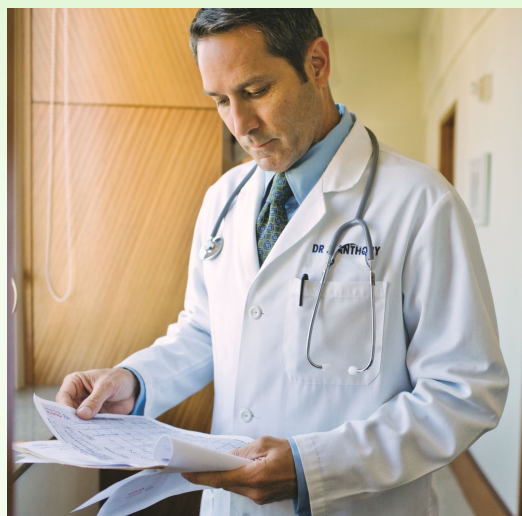

Additionally, to allow for the proper reimbursement of base and add-on procedures codes associated with these revenue codes, for claims with dates of service on or after July 1, 2012, the maximum flat rate reimbursement of revenue code 469 will be changed to equal that of revenue code 460 (\$36.37). The OMPP expects minimal impact on providers, based on the historical claims submission and use of revenue code 469.

Procedure codes billable with revenue code 460

Revenue code 460 – Pulmonary Function					
94010	94011	94012	94013	94014	94015
94016	94060	94070	94150	94200	94250
94375	94400	94450	94452	94453	94620
94621	94680	94681	94690	94726	94727
94728	94729	94750	94760	94761	94762
94770	94772	94774	94775	94776	94780
94799	95012				

Procedure codes billable with revenue code 469

Revenue code 469 – Other Pulmonary Function	
94610	94781

Update to mental health utilization edits

Utilization edits for mental health medications, as recommended by the Mental Health Quality Advisory Committee (MHQAC), were first implemented June 19, 2007. For more information, please see provider bulletin [BT200709](#). The utilization edits are reviewed by the MHQAC quarterly. The update to the utilization edit in the following table is effective July 10, 2012.

Update to utilization edit effective July 10, 2012

Name of medication and strength	Utilization edit
Latuda 20mg	1 per day
