INDIANA HEALTH COVERAGE PROGRAMS

BR201225

JUNE 19, 2012

Changes to the Antepartum Tests and Screenings Schedule

The Indiana Health Coverage Programs (IHCP) allows providers to bill a total obstetrical panel using procedure code 80055 – *Total obstetrical panel* or to bill each component of the obstetrical panel separately (see [Chapter 8](#) of the *IHCP Provider Manual*). Effective August 1, 2012, for dates of service on or after August 1, 2012, providers will no longer be allowed to bill separately for each component of the total obstetrical panel when all the tests listed in the panel are performed on the same date of service. If the total panel of tests and screenings is performed on the same date of service, providers must bill the total obstetrical panel using the bundled laboratory procedure code 80055.

CPT code 80157 linked to revenue codes 301 and 309

Effective August 1, 2012, the Indiana Health Coverage Programs (IHCP) has linked Current Procedural Terminology (CPT^{®1}) code 80157 – *Carbamazepine; free* to revenue codes 301 – *Lab chemistry* and 309 – *Lab other*. As appropriate, providers may bill this procedure code together with these revenue codes, for dates of service on or after August 1, 2012.
