INDIANA HEALTH COVERAGE PROGRAMS

BR201314

APRIL 9, 2013

Claims submitted with CPT codes 90791, 90839, and 90832 to be reprocessed or mass adjusted

Providers may have experienced incorrect denials when billing Current Procedural Terminology (CPT^{®1}) codes 90791 – *Psychiatric diagnostic evaluation*; 90839 – *Psychotherapy for crisis; first 60 minutes*; or 90832 – *Psychotherapy, 30 minutes with patient and/or family member*, when billed with modifiers AH, AJ, HE, and SE. The claims denied and posted with explanation of benefits (EOB) 4033 – *Invalid Procedure Code Modifier Combination*. A correction in the system has been made, and claims are now processing appropriately. Claims that denied or claims that paid with a denied detail line will be mass adjusted or reprocessed. Adjustments will begin appearing on the provider Remittance Advice (RA) dated April 16, 2013, with internal control number (ICNs) that begin with region code 56 (mass adjusted) or 80 (mass reprocessed). For claims that were underpaid, the net difference will be paid and reflected on the RA.

Consent for Sterilization form has been updated

The updated *Consent for Sterilization* form is now available on the [Forms](#) page of indianamedicaid.com. The new form is effective immediately and will be effective until October 31, 2015. The consent form is federally mandated and its use is required of all programs within the Indiana Health Coverage Programs (IHCP).

Providers should begin using the new form immediately. Effective May 9, 2013, the IHCP will no longer accept claims submitted with outdated consent forms. Any claims received with dates of service on or after May 9, 2013, without the updated consent form will be returned to the provider with a request for the current version of the form. The original signed consent form should be retained at the site where services are provided, and copies should be given to the recipient and submitted with the claim. The consent form is available in English and Spanish.
