INDIANA HEALTH COVERAGE PROGRAMS BR201406 FEBRUARY 11, 2014

CPT codes 98925-98929 to be removed from Audit 6122

The Indiana Health Coverage Programs (IHCP) has determined that Current Procedural Terminology (CPT^{®1}) codes 98925-98929 are indicative of osteopathic manipulation therapy rather than chiropractic manipulation therapy. Therefore, effective March 15, 2014, the CPT codes on [Table 1](#) on the following page will be removed from Audit 6122 – *Therapeutic physical medicine treatments exceeding fourteen (14), up to a maximum of fifty (50), per recipient, per calendar year, require prior authorization*. This audit pertains to Package C claims only.

The codes on Table 1 continue to be covered codes but are not on the chiropractic code set. As a reminder, CPT code 98925 is limited to a maximum of 25 treatments per year.

For additional information regarding coverage of chiropractic services, see [Chapter 8](#) of the *IHCP Provider Manual*.
