INDIANA HEALTH COVERAGE PROGRAMS BR201514 APRIL 7, 2015

Changes made in reimbursement of CPT code 19083

Effective May 15, 2015, the Indiana Health Coverage Programs (IHCP) is changing reimbursement of Current Procedural Terminology (CPT^{®1}) code 19083 – *Biopsy, breast, with placement of breast localization device(s) (eg, clip, metallic pellet), when performed, and imaging of the biopsy specimen, when performed, percutaneous; first lesion, including ultrasound guidance*. These changes effectively reverse changes previously announced in BR201507.

- In BR201507, CPT code 19083 was assigned an ambulatory surgical center (ASC) pricing indicator of 7 for dates of service (DOS) on or after July 1, 2014. This assignment is being removed for DOS on or after May 15, 2015. This code is not considered surgical in nature.
- In BR201507, CPT code 19083 was linked to revenue code 360 – *Operating Room Services-General* for DOS on or after July 1, 2014. This linkage is being removed for DOS on or after May 15, 2015, consistent with national coding guidelines.
