## Correction: Dialysis-related lab services that denied incorrectly will be reprocessed

Indiana Health Coverage Programs (IHCP) Banner Page [BR201521](#) incorrectly directed free-standing renal dialysis clinics to resubmit claims for dialysis-related lab services that inappropriately denied for explanation of benefits (EOB) 4208 – *Invalid CLIA certification/procedure code combination*. This applied to claims with dates of service (DOS) on or after **January 1, 2013**.

Instead, claims for this timeframe will be mass reprocessed; providers are not required to resubmit the claims. Providers will see the reprocessed claims on the Remittance Advice (RA) statements beginning July 7, 2015, with internal control numbers that begin with region code 80 (mass reprocessed).
