AUGUST 4, 2015

## IHCP to add procedure codes to the Optometrist Code Set

Effective September 4, 2015, the Indiana Health Coverage Programs (IHCP) will update the Optometrist Code Set to add the Current Procedural Terminology (CPT<sup>®1</sup>) codes listed in Table 1. These changes are effective for dates of service (DOS) on or after September 4, 2015, and will be reflected in the next monthly updates to the provider [Code Sets](#) at [indianamedicaid.com](http://indianamedicaid.com).

Table 1 - CPT codes to be added to the Optometrist Code Set for DOS on or after September 4, 2015

CPT Code	Description
11901	Injection, intralesional; more than 7 lesions
67515	Injection of medication or substance into membrane covering eyeball
68200	Subconjunctival injection
96372	Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); subcutaneous or intramuscular

Billing information applies to services provided under the fee-for-service (FFS) delivery system. Individual managed care entities (MCEs) establish and publish reimbursement, PA, and billing criteria within the risk-based managed care (RBMC) delivery system. Questions about RBMC billing should be directed to the MCE with which the member is enrolled.

## Nursing facility rates to be published by October 1, 2015

Contrary to earlier Indiana Health Coverage Programs (IHCP) publications, nursing facility (NF) rates for the quarter beginning July 1, 2015 are still being determined. These rates will be finalized and posted on the [Public Notices](#) page of the Myers and Stauffer LC website at [in.mslc.com](http://in.mslc.com) by October 1, 2015.

Over the past several years, a number of changes have affected the schedule for setting NF rates. With the change to the Value-Based Purchasing (VBP) methodology, final cost report data is now a prerequisite to finalizing rates because cost report data is used to support many of the VBP measures. Additionally, many facilities now qualify as Non State Government Owned (NSGO) facilities, which means the fiscal year for most NF providers now ends December 31. This change resulted in an increase in the number of cost reports being received for review at the same time of year. Historically, cost reports were received throughout the year. These and other changes have modified the NF rate-setting schedule such that rates for any given quarter may not be available until the beginning of the following quarter.

## IHCP to discontinue dental audits 6247 and 6248

Effective September 4, 2015, the Indiana Health Coverage Programs (IHCP) will discontinue dental audits 6247 and 6248 associated with the following explanation of benefits (EOBs):

- 6247 – *Topical application of fluoride and prophylaxis will not be separately reimbursed on the same date of service. A payment of \$70.00 will be reimbursed for the combination of both.*
- 6248 – *Topical application of fluoride and prophylaxis will not be separately reimbursed on the same date of service. A payment of \$56.75 will be reimbursed for the combination of both.*

The IHCP has determined that these audits are unnecessary because these services are no longer bundled. This change applies to dental claims with dates of service (DOS) on or after September 4, 2015. All other limitations for prophylaxis and fluoride still apply. See [Chapter 8](#) of the IHCP Provider Manual for more details.
