INDIANA HEALTH COVERAGE PROGRAMS

BR201623

JUNE 7, 2016

IHCP will change the status of HCPCS codes C2619 and C2620 to noncovered

Effective July 7, 2016, the status for the following Healthcare Common Procedure Coding System (HCPCS) codes will change from covered to noncovered. This change applies to all IHCP programs for dates of service (DOS) on or after July 7, 2016.

- C2619 – *Pacemaker, dual chamber, non rate-responsive (implantable)*
- C2620 – *Pacemaker, single chamber, non rate-responsive (implantable)*

Modern pacemakers render these devices obsolete. The claims processing system will be updated to reflect the noncovered status. The coverage update will be reflected in the next monthly update to the [Fee Schedule](#) and in updates to the Surgical Services code table on the [Code Sets](#) web page at indianamedicaid.com.
