IHCP system upgrade reflects DME MAC Medicare Payer ID updates

Effective July 1, 2016, the following changes occurred with respect to the Durable Medical Equipment Medicare Administrative Contractors (DME MACs):

■ Region B: (IL, IN, KY, MI, MN, OH, and WS)

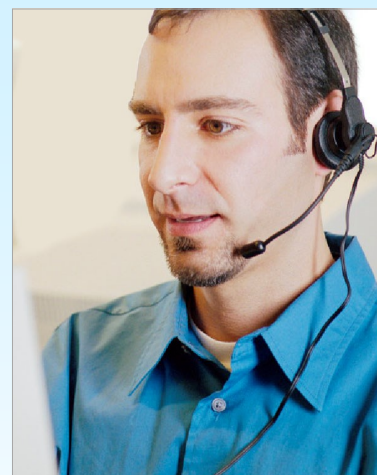

The DME MAC for Region B transitioned from National Government Services (NGS) to CGS Administrators, LLC (CGS). As part of the transition, the Medicare Payer ID for Region B claims changed from 17003 to 17013.

■ Region A: (CT, DC, DE, MA, MD, ME, NH, NJ, NY, PA, RI, and VT)

The DME MAC for Region A transitioned from National Heritage Insurance Company (NHIC) to Noridian Health Care Solutions, LLC (Noridian). As part of the transition, the Medicare Payer ID for Region A claims changed from 16003 to 16013.

The Indiana Health Coverage Programs (IHCP) performed a system upgrade to reflect the updated Medicare Payer IDs in the claims processing system for DME MAC transactions. DME crossover claims submitted from July 1, 2016, through July 10, 2016, before all updates to the IHCP claims system were finalized that included the new payer IDs were erroneously rejected. Rejected claims can now be resubmitted for adjudication. Going forward, DME claims submitted with outdated Medicare Payer IDs will reject.

A complete list of Medicare Payer IDs is available on the [Electronic Data Interchange \(EDI\) Solutions](#) page at indianamedicaid.com.
