AUGUST 30, 2016

IHCP to remove the age restriction for HCPCS code S2083

The Indiana Health Coverage Programs (IHCP) currently restricts Healthcare Common Procedure Coding System (HCPCS) code S2083 – *Adjustment of gastric band diameter via subcutaneous port by injection or aspiration of saline* to ages 21 to 65. Effective October 1, 2016, the IHCP will remove the age restrictions for S2083. This change applies to dates of service (DOS) on or after October 1, 2016, for all IHCP programs.

IHCP to change the status for HCPCS code J1590 to noncovered

Effective immediately, the Indiana Health Coverage Programs (IHCP) fee-for-service (FFS) claims processing system will be updated to reflect Healthcare Common Procedure Coding System (HCPCS) code J1590 – *Injection, Gatifloxacin, 10 mg* as noncovered. Gatifloxacin was withdrawn from sale for reasons of safety or effectiveness by the Food and Drug Administration (FDA) in 2008. No claims are affected by this change. The coverage update will be reflected in the next monthly update to the [Fee Schedule](#) at indianamedicaid.com.
