**To: All Providers****Subject: Implementation of Utilization Edits for Mental Health Medications**

## Overview

The Indiana Medicaid Drug Utilization Review (DUR) Board reviewed and approved the Mental Health Quality Advisory Committee's (MHQAC) recommended utilization edits for mental health medications. The utilization edits were developed to enhance quality and appropriateness in mental health prescribing practices. The edits will be implemented for consistent use throughout all risk-based managed care (RBMC) and Traditional Medicaid fee-for-service programs. When a provider submits any claim that is not within the recommended utilization edit criteria, the claim denies and is subject to the prior authorization (PA) process. The utilization edits are effective on **June 19, 2007**.

## Definition of Utilization Edits

Pharmacy claims processing edits, some of which require a medical necessity review through the PA process, address prescribing situations that are inconsistent with established pharmacokinetic principles and clinical practice guidelines. Utilization edits include, but are not limited to, drug interactions, frequency of refills, dose optimization, age, days supply, compounded drug claims, and quantities dispensed. The intent of the edits is to promote patient adherence to medication regimens and ensure safe, appropriate use of medications in the Indiana Medicaid population. Utilization edits do not constitute formulary restrictions. Utilization edits are reviewed quarterly. This definition is consistent with the rules and regulations published in *Indiana Code (IC) 12-15-35.5-7*.

## Prior Authorization Criteria for Utilization Edits

When a prescriber answers **Yes** to any of the following criteria, a PA approval results:

- Patient is intolerant to the recommended drug regimen due to adverse side effects.
- Patient is unable to comprehend the recommended drug regimen.
- Patient did not achieve desired results with the recommended drug regimen.
- Patient cannot use the recommended dosage forms. For example: unable to swallow.

The prescriber must provide supporting documentation to substantiate the approval of the requested regimen. Prescribers may obtain PA via the telephone or FAX

## Contact Information

For PA requests or questions, please contact the appropriate entity as follows:

- **Traditional Medicaid**
  - Telephone: (866) 879-0106
  - Fax: (866) 780-2198
- **Anthem**
  - Telephone: (877) 652-1223
  - Fax: (866) 408-7103
- **Managed Health Services**
  - Telephone: (800) 460-8988
  - Fax: (866) 399-0909
- **MDwise**
  - Telephone: (800) 558-1655
  - Fax: (877) 234-4274

Refer to Attachment 3 of the April 2007 Provider Newsletter for additional Managed Care Organizations (MCO) behavioral health contact information.

## Utilization Edits

Table 1 lists the mental health medications that are subject to the utilization edits. The utilization edit is listed as a quantity per day unless otherwise indicated.

Table 1 – Utilization Edits

| Mental Health Medication   | Utilization Edit |
|----------------------------|------------------|
| ABILIFY 1MG/ML SOLUTION    | 30ml/day         |
| ABILIFY 10MG TABLET        | 1/day            |
