Reduction in Attendant Care Services Reimbursement

The Office of Medicaid Policy and Planning (OMPP) has determined a change in reimbursement is necessary in order to avoid an anticipated budgetary shortfall and to remain within the available Medicaid appropriation. As a result, reimbursement for attendant care services will be reduced by 5 percent beginning for dates of service on or after January 1, 2011. If the changes are not implemented January 1, 2011, providers will be notified of the revised date and HP will mass adjust claims retrospectively.

The OMPP appreciates your cooperation and your continued participation as providers in the Indiana Health Coverage Program.
