INDIANA HEALTH COVERAGE PROGRAMS BT201115 MAY 24, 2011

Reduction in reimbursement for nonhospital-based freestanding dialysis facilities

Effective July 1, 2011, the Indiana Health Coverage Programs (IHCP) will reduce reimbursement to freestanding dialysis clinics by 5 percent for members enrolled in the IHCP. The reduction will continue through June 30, 2013. This rate reduction will be applied at the claim detail level, based on the billing provider specialty. The IHCP-allowed amount for any service provided by a freestanding dialysis clinic (provider specialty 300) will be reduced by 5 percent for all services billed on the claim that are provided on or after July 1, 2011. This reduction in the allowed amount will occur prior to subtracting any third-party liability (TPL) for the claim.

These changes will be applied to all Traditional Medicaid, Hoosier Healthwise, and *Care Select* claims, including Medicare crossover claims.

The OMPP appreciates your cooperation and your continued participation as providers in the IHCP.
