Provider enrollment application fee will not be assessed at revalidation

In earlier provider communications, including bulletins, website content, and enrollment documents, the Indiana Health Coverage Programs (IHCP) stated that certain provider types were required to pay the enrollment application fee when revalidating their IHCP provider enrollments.

Before you send an application fee to the IHCP for any reason, make sure your provider type and specialty, and your circumstance, require a fee!

At this time, the IHCP has decided not to assess an enrollment application fee at revalidation for any enrolled provider. Revalidation fees previously paid will be refunded.

When do you need to pay an enrollment application fee?

Before you send an enrollment application fee to the IHCP for any reason, make sure your provider type and specialty, and your circumstance, require a fee!

First, go to the Provider Type Application Fee and Risk Assignment Matrix (for [Non-Waiver](#) and [Waiver](#) providers) on indianamedicaid.com to find out if you are one of the provider types and specialties for which an application fee is assessed.

[Continue](#)

If you are one of the provider types and specialties requiring an application fee, the fee is assessed under the following circumstances:

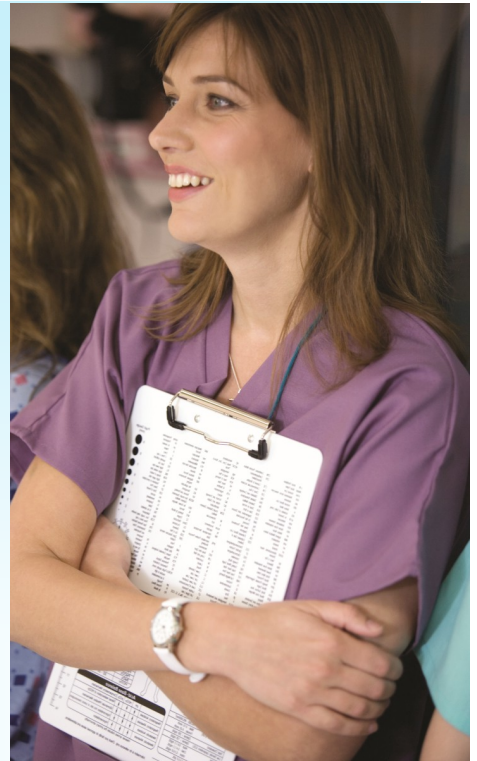

- Initial enrollment (per service location)
- Change of ownership (per service location)

If you have already paid an enrollment application fee to Medicare or to another state's Medicaid program for any of the circumstances listed, you do not need to make a fee payment to the IHCP for that same circumstance.

An application fee is not assessed under the following circumstances:

- Addition of a rendering provider
- Updating your provider profile
- Recertification
- Revalidation

For more information about what is required at provider enrollment and revalidation, see the [Provider/Become a Provider/Affordable Care Act \(ACA\) Requirements page](#) on indianamedicaid.com.
