INDIANA HEALTH COVERAGE PROGRAMS BT201326 JUNE 28, 2013

Update regarding reduction in reimbursement for nonhospital-based freestanding dialysis facilities

As previously published in *Indiana Health Coverage Programs (IHCP) Bulletin* [BT201115](#), the IHCP implemented a 5% reduction in reimbursement for nonhospital-based freestanding dialysis clinics effective July 1, 2011, through June 30, 2013. **This reimbursement reduction has been extended to dates of service through December 31, 2013. Effective for dates of service on or after January 1, 2014, reimbursement amounts will return to their pre-reduction levels.**

For dates of service from July 1, 2011, through December 31, 2013, the IHCP will reduce reimbursement to freestanding dialysis clinics by 5%. This rate reduction will be applied at the claim detail level, based on the billing provider specialty. The IHCP-allowed amount for any service provided by a freestanding dialysis clinic (provider specialty 300) will be reduced by 5%. This reduction will occur before subtracting any third-party liability (TPL) for the claim.

This change applies to all Traditional Medicaid, Hoosier Healthwise, and *Care Select* claims, including Medicare crossover claims.
