INDIANA HEALTH COVERAGE PROGRAMS BT201457 NOVEMBER 25, 2014

New restrictions added for full-mouth debridement coverage

Effective January 1, 2015, Indiana Health Coverage Programs (IHCP) will add new policy restrictions for coverage of full-mouth debridement services as follows:

- Limited to once per three years per member
- Limited to one unit per date of service

This service is intended for patients with excessive plaque or calculus that inhibits the dental professional's ability to perform comprehensive oral evaluations. It is only indicated in situations when the patient has not had a dental visit for several years.

This policy change applies to all IHCP programs, subject to limitations established for certain benefit packages, for dates of service on or after January 1, 2015.
