## IHCP to require APNs to enroll as IHCP providers

Effective July 1, 2016, the IHCP will require APNs to be enrolled as IHCP providers. This requirement includes nurse practitioners (NPs), nurse midwives, certified registered nurse anesthetists (CRNAs), and clinical nurse specialists (CNSs). The APN may bill using the physician's NPI unless the member is assigned to the APN's primary care panel. In all instances, medical records must clearly identify the provider that actually rendered the services. Claims submitted for dates of services on or after July 1, 2016, for services rendered by APNs who are not enrolled are subject to recoupment through postpayment review.
