INDIANA HEALTH COVERAGE PROGRAMS BT201609 FEBRUARY 25, 2016

IHCP replaces provider manuals with new *IHCP Provider Reference Modules*

The Indiana Health Coverage Programs (IHCP) has given the *IHCP Provider Manual* and the supplemental provider manuals a major face-lift! Provider manuals have been replaced with a set of *IHCP Provider Reference Modules* intended to be more user-friendly. Information previously published in manuals has been reorganized into shorter, topic- and service-specific reference modules. The new format is designed to help providers find information easily and to allow the IHCP to update content more quickly.

The modules are available on the new [Provider Reference Materials](#) page at indianamedicaid.com. Existing links to old manuals will redirect users to the new page. Providers are encouraged to establish bookmarks for the new page and for the modules they use most frequently. Archived manuals will continue to be available to providers for a limited time for historical reference purposes; however, providers should not rely on the archived documents for up-to-date information.

Along with the move to a modular format, the IHCP has removed many of the diagnosis and procedure code tables that previously appeared in provider manuals and posted them to the [Code Sets](#) page at indianamedicaid.com. Links to the *Code Sets* page have been placed in the modules to allow providers access to code tables from the modules. Providers can also access the code tables directly from the *Code Sets* page.

The new modules contain IHCP policies and procedures effective as of October 1, 2015. Look for the new modules and the code tables under the *Provider Reference Materials* and *Code Sets* "Quick Links" at indianamedicaid.com today!
