## Overview

This bulletin is to notify all Indiana Health Coverage Programs (IHCP) Home and Community-Based Services Waiver Program providers and case managers that a waiver provider search was added to the Indiana Medicaid Web site March 26, 2001. The Indiana Medicaid Web site is available at [www.indianamedicaid.com](http://www.indianamedicaid.com).

## General Information

A new waiver provider search feature has been added to the Indiana Medicaid Web site that allows users to locate information about waiver providers enrolled in the IHCP. Web site visitors can obtain information about waiver providers by searching for city, provider name, or a combination of city and specialty. The search returns records of providers that meet the entered search criteria. As many as 300 records can be returned with any search.

Case managers can use this information to locate waiver providers in a specific area.

This information will be updated monthly.

## Enrollment Information

Waiver providers are encouraged to use the waiver provider search to verify that their information is correct. The waiver provider search

lists provider name, address, city, state, ZIP, telephone number, and provider specialty. The information on the Web site is the same information contained in IndianaAIM based on IHCP enrollment information. If any information is incorrect or has changed from what appears on the Web site, these changes should be reported to both addresses listed in Table 1.1.
