**To: All Pharmacy Providers**

**Subject: Updated and Revised Federal Upper Limits List**

*Note: The information in this bulletin is not directed to those providers rendering services in the risk-based managed care (RBMC) delivery system.*

## Overview

The information provided in this bulletin contains the newly developed list of federal upper limits (FUL) for multiple source drugs that meet the criteria set forth in 42 CFR 447.332 and §1927(e) of the *Social Security Act*, as amended by *OBRA 1993*. This information is in addition to the recently updated State maximum allowable cost (MAC) rates.

The new rates in Table 1.1 are in effect May 11, 2002, and will apply to pharmacy claims submitted with service dates of May 11, 2002, and later.

Please incorporate the list into the appropriate section in *Chapter 9* of the *Indiana Health Coverage Programs Provider Manual*. This listing has priority over, and replaces any prior FUL listing.

If there are any questions about the FUL list or the text of this bulletin, please contact the EDS Pharmacy Services Point of Service (POS)/ Prospective Drug Utilization Review (ProDUR) Help desk at 1-877-877-5182.
