

PROVIDER BULLETIN

BT200244

AUGUST 20, 2002

To: All Indiana Health Coverage Program (IHCP) Pharmacy Providers and Prescribing Practitioners

Subject: Indiana Medicaid State Maximum Allowable Cost (MAC) Fee Schedule Update

Note: The information in this bulletin is not directed to those providers rendering services in the risk-based managed care (RBMC) delivery system

Overview

On July 1, 2002, Indiana Health Coverage Programs (“Indiana Medicaid”) adopted a State Maximum Allowable Cost (MAC) rate schedule for certain multiple-source generic drug products, blood factors and blood derivatives, in response to *Section 155 of Public Law 291-2001*. The State MAC supplements, and is in addition to the existing Federal Upper Limit (Federal MAC) program as determined by the Health Care Financing Administration under *42 CFR 447.332*.

Indiana Administrative Code, *405 IAC 5-24-4*, requires that the Office of Medicaid Policy and Planning (OMPP) periodically review the State MAC rates and adjust the rates as necessary to reflect prevailing market conditions. This bulletin is to advise Indiana Medicaid providers that effective October 3, 2002, State MAC rates will be adjusted as indicated in the table below.

Questions regarding the State MAC program, including those involving product availability, the State MAC rates, or other related aspects should be directed to the Myers and Stauffer Pharmacy Unit at (800) 877-6927 or (317) 846-9521 weekdays between the hours of 8 a.m. and 5 p.m.
