

INDIANA HEALTH COVERAGE PROGRAMS

PROVIDER CODE TABLES

Procedure Codes That Require National Drug Codes (NDCs)

*Note: Due to possible changes in Indiana Health Coverage Programs (IHCP) policy or national coding updates, inclusion of a code on the code tables does not necessarily indicate **current** coverage. See [IHCP Bulletins](#) and [IHCP Fee Schedules](#) for updates to coding, coverage, and benefit information.*

For information about using this code table, see the [Claim Submission and Processing](#) provider reference module.

The following table lists **drug** procedure codes that require a national drug code (NDC) on the professional or institutional claim. There may be procedure codes for **other** items that also require NDCs, such as certain drug-related durable medical equipment (DME), including E0607 – *Home blood glucose monitor* and A4253 – *Blood glucose test or reagent strips for home blood glucose monitor, per 50 strips*.
